Global Bank Commits \$5 billion in U.S. Investments Over Five Years to Fund its 2023-2028 Capital Investment Plan Fully

Newport Beach, CA December 13, 2022 — Global Bank expects to invest up to US\$800 million a year in the upcoming years to fund its Capital Investment Plan 2023-2026. Also, Global Bank plans to invest US\$1 billion per year to fund its long-range capital program starting in 2026, with an eventual total investment of up to US\$20 billion over the next ten years.

Every day of the year, Global Bank strives to provide a world-class workplace environment for its employees. Global Bank expects an ever-increasing level of sophistication, commerciality, flexibility, and sustainability from its global infrastructure and support services as it strives to serve the diverse needs of its client countries in a rapidly changing, increasingly complex and regulated market.

During the week of December 7, the President of Global Bank, Ron Nechemia and his team travelled to California, Washington, D.C., and New York with the Bank-Wide Strategy Group of Global Bank, visiting FinTech and other investment opportunities in support of the development of corporate infrastructure.

Ron Nechemia uses his visits to discuss the thousands of high-skilled and high-paid jobs he expects to come to those areas, a process that could take a decade or more to complete.

Building a Twenty-First Century Global Development Bank

Mr. Nechemia stakes his legacy in large part on significant investments in the capacity development of Global Bank to invest smartly, operate the business efficiently, and manage risk intelligently, including investment in human capital, technology, and the development of state-of-the-art corporate infrastructure.

Global Bank has allocated billions of dollars to build out its banking operation and bring in top talent from top-tier investment banks to head business units

Global Bank's investment in the development of corporate infrastructure is key to the Bank's growth, and it expects to add 300 to 500 more employees to join the leadership team of the Global Bank next year. About Global Bank

[Global Bank](#) is the Global Bank Group's long-term sovereign lending institution. As a development bank with an agenda driven by G-7/G-8 and G-20-priorities, its leading priority is to promote global economic and social

development. Unlike the multilateral development banks (MDBs), Global Bank is not restricted to operating only in developing countries.

The Global Bank Group represents, develops, and supports the collective interests of the Global Bank and its business interests globally. Global Bank is a full-fledged private sector global development bank, in formation, – the *world's second global development bank* – positioned next to the *World Bank Group* and next to the preeminent regional development banks. It combines the characteristics of a multilateral development bank with those of a private financial institution. The primary objective of the Global Bank is to reduce poverty in middle-income countries and creditworthy poorer countries by promoting sustainable development. To this end, Global Bank finances primarily public sector infrastructure projects and sustainable development through the provision of sovereign loans to developing countries. Global Bank's financial objective is not to maximize profit, but to earn an adequate income to ensure its financial strength and to sustain its development activities.
