About Global Bank

[Global Bank](#) is the Global Bank Group's long-term sovereign lending institution. As a development bank with an agenda driven by G-7/G-8 and G-20-priorities, its leading priority is to promote global economic and social development. Unlike the multilateral development banks (MDBs), Global Bank is not restricted to operating only in developing countries.

The Global Bank Group represents, develops, and supports the collective interests of the Global Bank and its business interests globally. Global Bank is a full-fledged private sector global development bank, in formation, – the *world's second global development bank* – positioned next to the *World Bank Group* and next to the preeminent regional development banks. It combines the characteristics of a multilateral development bank with those of a private financial institution. The primary objective of the Global Bank is to reduce poverty in middle-income countries and creditworthy poorer countries by promoting sustainable development. To this end, Global Bank finances primarily public sector infrastructure projects and sustainable development through the provision of sovereign loans to developing countries. Global Bank's financial objective is not to maximize profit, but to earn an adequate income to ensure its financial strength and to sustain its development activities.
